

Appendix A: List of news stories included in the analysis

Each file name contains the date of the broadcast, the time (e.g., "0630" = 6.30 a.m.; "1800" = 6 p.m.), a sequential number (e.g., "2" = 'second story in the broadcast'), a code letter (A, B...; not relevant for identification of the news story), and a key phrase in Swedish that roughly summarizes the content of the story (e.g., "olyckaItalien" = 'accident Italy').
